---

### MYANMAR

Recent floods in Myanmar have devastated communities with loss of life and damage to property.

Photos capture some of the devastation but can never convey the grief and loss that people feel when loved ones are lost, as they have been in these floods. Some of the images attached create a sense, albeit limited, of the damage suffered by communities across Myanmar as the annual monsoons bring heavy rainfall leading to rising water levels in low lying areas and land and mudslides in the hills and mountainous regions.

Individuals and churches seeking to assist may do so, first, by praying and, if possible, sending cash donations to Apostolic Global Operations.

## Your Story

We would absolutely love to hear what's happening in the countries that your church is working in. If you have a story or an update like the above that you'd love to share, please send it to Cathy at [cathy@apostolic.org.au](mailto:cathy@apostolic.org.au).
