Conference 2016 Testimonies.

The National Conference was a great success with many people returning home healed and enthused below are some testimonies.

David Crossfield writes, *"I was healed of a back injury by God through Ps Clark Taylor's ministry at Conference. Following on from this I prayed for people around back problems on Sunday, approx. 20 people responded in the meeting. Around 3 reported instant healing, including 1 man who could touch his toes for the first time in his life!*

We're believing that God has been doing more in people's backs through the week, and are looking forward to more testimonies this weekend."

Marg Scown writes, *"Our Young Married/Families Pastor Micah and Aaron received a distressing report from their Obstetrician that their unborn baby had a hole in his heart and downs syndrome...needless to say that Micah and Aaron were devastated, but we all believed and prayed that bubs would be born healthy and healed.*

On the Wednesday of conference, Micah went out for prayer both with Clark and Joel, and said that she felt rain on her face Wednesday night, as well as a desperate need to be baptised (which we did in the hotel's pool). This morning Micah had tests/scans, and this is the SMS she sent through this morning: - "Hi everyone! We just finished our scans! Perfect heart and no Down syndrome! Thank you Jesus!!! Praise the Lord!!! HEALED...BUBS IS HEALED!!!!"

How awesome is that!!! God is so good!

Security

Keep people and things safe is an important element of risk management - and needs constant attention.

Security takes a number of forms, from taking care of petty cash, to cash to the bank, to taking children to kids' programs.

While most churches receive more offerings through transfers than in cash, we still need to provide adequate security for the people who handle the cash, and the cash itself. As a responsible leader, you'll want to ensure that

- cash counting is done in a secure location with two reliable people counting and signifying agreement on the amount received by signing a count sheet
- cash is secure from the completion of counting to it being deposited at the bank
- the person carrying cash and the cash itself is as safe while being taken to the bank. Do not assume that because cash amounts are relatively small that there is no risk.

It is a sensible practice to review procedures periodically and ensure that people are safe during every phase of the cash-handling process.

Superannuation

If you chose the employer default fund of Colonial First State on your Super Choice Form then this is some important superannuation information for all Employer Super Fund Members from our Plan Advisor.
